Due to COVID-19 pandemic, team FFDC, Kannauj, within 8 days re-oriented its setup to produce Hand Sanitiser to fight COVID-19. We took drug & alcohol license, designed labels, arranged bottles & raw materials locally & got setup ready to produce Hand Sanitiser to serve nation. It was dedicated small team which worked day & night within limited resources to make it possible within short span of time and after serving to government organisation in beginning we decided to serve to others as well.

**Advantage**: This is the fastest drying sanitising solution as compare to other sanitiser/disinfectant made on iso-Propyl alcohol/Sodium hypochlorite based solution which takes relatively more time to dry.
